

March 27, 2007

Dear Community Partner,

The Alzheimer's Association California Southland Chapter supports the innovative and charismatic play, *Skips in the Record*, produced by Waterspill Junction Inc. The play is a realistic depiction of an African American family's dynamics and challenges with Alzheimer's disease. *Skips in the Record* conveys a culturally specific and educational message about Alzheimer's disease that resonates with rich and vibrant characters that weave an enthralling tale of how a family copes, heals and deals with the dynamics of Alzheimer's disease.

The Alzheimer's Association has sponsored four readings for the play, *Skips in the Record*. The readings were performed at various community-based locations such as West Angeles Church, Holman United Methodist Church, Circle of Friends Adult Day Care and Cedars Sinai Medical Center. Each reading was successful and highly regarded by the audience as an excellent and innovative approach to educate the community about Alzheimer's disease.

On behalf of the Alzheimer's Association California Southland Chapter, I appreciate your consideration to support the valiant efforts of Waterspill Junction Inc to continue to educate the community about Alzheimer's disease and its impact on families through the promotion of the play, *Skips in the Record*.

I appreciate your consideration. If you have any questions, please call me at (323) 930-6219.

Cordially,

Kathleen Taylor
